BRING COLOUR INTO THE POOL

ADAGIO SPECTRA & PRO

Adagio under water lights are innovative LED lighting solutions assembled with high quality components and materials making them very powerful, efficient and economical in use. All Adagio lights are attuned to each other for easy fittings and installations with smart technology like QickConnect™, PressFit™ or ClickOn™.

QickConnect™

Extremely reliable and easy to mount proprietary connector with gold plated contacts. The power-line wires can be inserted without the need to be stripped and are fixed with selfpiercing contact screws.

PressFit™

An adjustable light mounting system that allow pool lights to be fitted seamlessly to the wall, even if the wall conduits have not been mounted 100% vertically.

ClickOn™

An innovative concept of easily interchangeable face plates for pool lights. A wide selection of face plates is available allowing detailed personalization.

According to the pool size and the individual requirements the Adagio's are available in the dimensions 5, 10 or 17 cm diameter and can be specifically mounted in 1½" IG wall conduits.

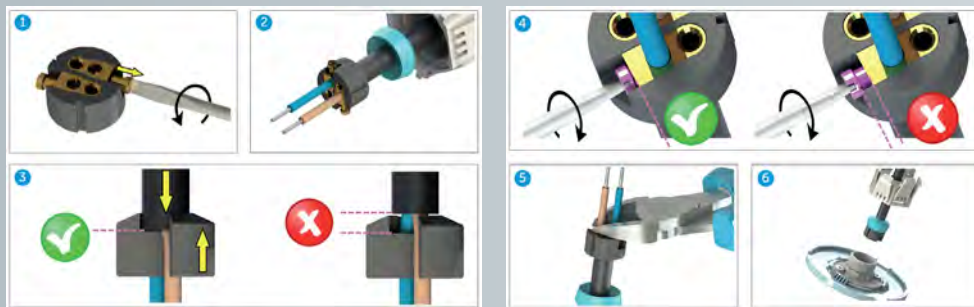

Customer pool with under water lights: Medan, Indonesia
