EVERY POOL IT'S OWN COLOUR

OCEAN® SWIMMING POOL LINER WITH ACRYLIC COATING

Our Ocean® swimming pool liners are coated with acrylic. The material properties of the 4-layer and 1,5 mm thick, reinforced liners guarantee watertightness, color fastness and chlorine resistance over many many years.

The laying takes place on the pre-treated surface by hot air welding. The special Acrylic coating protects the liner optimal against UV radiation, stains, abrasion, and microorganism. Thus there is a perfect protection against the daily environmental influences, early aging and ensures a particularly easy care.

BASIC COMPOSITION OCEAN® SWIMMING POOL LINERS ACRYLIC

- 4. LAYER / TOP LAYER
Acrylic coating (4-layers) for increased abrasion resistance, stain and UV resistance
- 3. LAYER
PVC layer (75 mic), light-insensitive, printing pigments against color fading, anti-fungal function, chlorine and UV resistance
- 2. LAYER
Strong polyester mesh with extremely high dimensional stability
- 1. LAYER / LOWER LAYER
PVC layer (75 mic), anti-fungal function, chlorine and UV resistance

OCEAN® SWIMMING POOL LINER TOUCH

The exclusive acrylic liners in "Stone" design allows the construction or renovation of pools with an absolutely waterproof 3D membrane. The 3D design gives the liner a real good-locking rock appearance.

Despite the 3D design and thanks to the special surface coating the liner achieves a superior stain resistance, easy cleaning and a non-slip grip.

OCEAN® SWIMMING POOL LINER ELVA-FLEX

The unique, durable and phthalate-free formula of Elva Flex has been developed for extreme durability against intense UV radiation, difficult weather conditions (up to 37°C) and aggressive chemicals.

Elva-Flex is the ultimate solution for big and public pool facilities as well as special mineral water baths and spas.
